## Profile

Designer/Developer with multiple talents seeking to expand my knowledge and work experience by joining up with other creative professionals to develop high end interactive design-related products. My ideal employment opportunity would consist of working with an interactive design agency devoted to producing inspiring creative solutions for clients. I would also like to work with projects that could utilize multiple skills and technologies. Expanding my knowledge and having the opportunity to work with new technologies is a big plus.

## Consulting Experience

## Employment Experience

### 2005-2007 RED VENTURES CHARLOTTE, NC

As a senior web designer, my responsibilities included developing websites, brand development, and marketing materials for numerous companies under the Red Ventures umbrella. Red Ventures was #2 on the Inc 500 list for advertising and marketing and had partnerships with well known brands such as DirectTV and ADT. My goals within the company were to develop great looking sites and tools to help achieve marketing goals utilizing such technologies as Flash, 3D, and PHP as well as using modern website design and deployment strategies.

### 1999-2000 THE ASSOCIATES, GRAY TN

Provided tier 1 and tier 2 internet technical support for dialup and ISDN customers that subscribed to internet services through AT&T, IBM, Dell, and Verizon. Provided customer phone assistance in resolving problematic internet connections. Duties required extensive knowledge of internet computer networking.

### 1997-1999 IICS COMPUTER CONSULTANTS, BLUEFIELD WV

Sole proprietor and president. Operated and managed full time computer business including customer sales, service and satisfaction, inventory control, purchasing, competitive pricing, computer diagnosis and repair, contract jobs, on-site business repair and consulting.
